

Letting Go

Balligomingo

The sun will shine again
I'm letting go and I sing

Help me find the reason
Make me see the light
Wrap me up and drive me home
Make it be all right

Find me something good
Find me something good, before I run away.

Let be your reason
Help me say goodbye
Wrap me up and drive me home this is our last night

Find me something good
Find me something good, before I run away.

The sun will shine again
I'm letting go and I sing

The sun will shine again
So now I know and I sing to you.

Let be your reason
Help me say goodbye
Wrap me up and drive me home this is our last night

Find me something good
Find me something good, before I run away.

The sun will shine again
I'm letting go and I sing

The sun will shine again
So now I know and I sing to you.
