

You're A Star

Balligomingo

I saw your reflection in the waterfall
I knew you'd be the one to get me through.

Your sympathy was my fruit
Feel a tidal wave when I'm with you
And I knew you'd be the one

You're a star in the world I know
From a picture perfect world
And there's nowhere I'd rather be when I'm with you

I got a feeling
Show me now
Where I won't hurt

Your sympathy was my fruit
Feel a tidal wave when I'm with you
And I knew you'd be the one

You're a star in the world I know
From a picture perfect world
And there's no where I'd rather be when I'm with you

I got a feeling
Show me now
Where I won't hurt

You're a star in the world I know
From a picture perfect world
And there's nowhere I'd rather be when I'm with you

You're a star in the world I know
From a picture perfect world
And there's no where I'd rather be when I'm with you
