

## Body Parts

Ballyhoo!

Local cemetery, just digging holes  
I found some body parts to get me started  
Bloody laboratory love

I can feel it when it's working  
Take it all  
Replacing her heart with a circuit  
Take it all

The walls of my castle are keeping my secret  
And there is no suspicion of this sick experiment  
I just want a perfect woman to adore  
Put these bolts up in her neck  
Electric sex is what I'm looking for
