

Fast Times

Ballyhoo!

Stepping off stage and it's time to go
Put some liquor in my glass, let it overflow
I heard about a place that goes way past 2
I'm down if you're down, I'll follow you

Cause you're never too old to live
Like you got no fucks to give
And nobody's saying stop
So dance 'til you drop
Cause this is where the party is

Ragin' every night, this is the life all right whoa
And I'm feeling so alive and I can't say no
Got my homies by my side and they're always down to ride
Running through the red lights cause these are the fast times

We made it up to the VIP
I got drunk white girls spilling drinks on me
Punishing my face with some gibberish
You got Jäger on your breath like licorice

Keep asking if I want a little swig of this
But I'll be puffin on this spliff 'til I choke
Cause after parties, they ain't no joke
And I don't think I'm ever going home

Yeah we're ragin' every night this is the life all right whoa
And I'm feeling so alive and I can't say no
Got my homies by my side and they're always down to ride
Running through the red lights cause these are the fast times

Ragin' every night this is the life all right whoa
And I'm feeling so alive and I can't say no
Got my homies by my side and they're always down to ride
Running through the red lights cause these are the fast times
