

## Last Breath

Ballyhoo!

Stand beside myself with no words left to say,  
And no matter how close I get you're still six feet away  
If you could show me the sun  
I could accept this but I can't forget  
Cuz I know that you're the one that made me who I am

I need to have you there  
Cuz it's not the same, no it's not the same  
I need to have you there  
Cuz it's not the same, no it's not the same

So tell me how loved you been  
Is it like we hoped it would be (like we hoped it would be)  
Can you see me staring back at you,  
With my youth around my feet  
And the eyes see you that day  
It was too strong for you to carry on  
As you lay and drift away  
I lose my faith cuz there is no god

I need to have you there  
Cuz it's not the same, no it's not the same  
I need to have you there  
Cuz it's not the same, no it's not the same

Someone once told me that these arms could save a life or two  
But it still kills me to know that I could not save you

I need to have you there  
Cuz it's not the same, no it's not the same  
I need to have you there  
Cuz it's not the same, no it's not the same
