

## Mad Love

Ballyhoo!

Here's a sad sad story  
About a group of friends  
And it's a sad sad feeling  
When ya, when ya know it's gonna end  
And I know that it can't be what it used to be  
And when I think about it, it gets me down, so down  
I take a look around me  
I see many a familiar face  
Ever see you again

Yeah, yeah  
Cause I'm addicted to you  
Always had that love  
We always had the love

Well it was the summer of 1998  
And the beach was lookin great  
All that salty air  
Blowin through my hair  
Gave me the feeling that it was unfair  
Before you go, there's one thing I gotta say  
That it was fun and it was nice, yeah, oh so nice  
If you had told me that I'd miss it  
I'd say, damn you're trippin  
But I can't lie to you  
Sometimes I don't know what to do  
Won't be fooled again  
So where's my hooligans?  
You know we'd die for your sins  
I'm proud to call you my friends

Yeah, yeah  
Cause I'm addicted to you  
Always had that love  
We've always had the love

Always had that love  
We've always had the love  
Cause I'm addicted to you  
Always had that love  
We've always had the love
