

# Ricochet

Ballyhoo!

I'm not where I thought I would be  
It seems that things don't always go as they're planned  
My life is a merry-go-round  
A dream that's helpless to supply and demand

It could be worse  
I could be headed down this road in a hearse  
I'll be alright  
As long as I can see the stars in the sky

Don't look away  
You're gonna make it there someday  
Hearts disarray  
But you're a bullet so ricochet

I believe we can bounce back from anything  
No matter how much devastation we endure  
Open your eyes, you're still alive  
Just set the target in your sights  
Fire away like this is worth fighting for

It could be worse  
You could be headed down this road in a hearse  
And you'll be alright  
As long as you can see the stars in the sky

Don't look away  
You're gonna make it there someday  
Hearts disarray  
But you're a bullet so ricochet

Don't look away  
You're gonna make it there someday  
Hearts disarray  
But you're a bullet so ricochet

I won't let the fear of failure  
Drag me to the battleground  
And I'll persevere through danger  
I can never turn my back on this now

No matter what they say  
Don't ever look away

\*guitar solo\*

Don't look away  
You're gonna make it there someday  
Hearts disarray  
But you're a bullet so ricochet

Don't look away  
You're gonna make it there someday  
Hearts disarray  
But you're a bullet so ricochet

I'm not where I thought I would be

But good things come to those who don't wait around  
So keep your eyes fixed on the prize  
Head in the clouds but keep your feet on the ground
