

Later

Balthazar

Lay low don't put your head up high
This time is not right for you just ask me why
'Cause when I'm looking for some care
Baby I won't be found
By all aside be around so there you go

This island the riff I I'm to blame for this
'Cause I don't see myself round here anymore
So how will you do when I mark this page
And think later , see later that I am no good

So when you're looking for some care
Maybe I did put it there
It's not the sweet on your tongue the taste with a sunday stare
Put all your high cards aside
The joker's not anywhere but where you lay his coat
You will join , he will win

This island the riff I I'm to blame for this
'Cause I don't see myself round here anymore
So how will you do when I mark this page
Think later , see later that I am no good

This island the riff I I'm to blame for this
'Cause I don't see myself round here anymore
So how will you do when I mark this page
Think later , see later that I am no good
