

Pull The Wires

Baltimora

Feel my heart awake
Each time I call your name
Oh darling, I can't help it
I'm walking on the moon

Never ending story
Woman meeting man
I'm losing concentration
What's happening to me?

Hey, you pull the wires
Of my love, in every way
Hey, my desire
Is your love, right away
You pull the wires, moving me, baby
Of love's desire, loving you
Oh-oh, pull the wires
I will surrender right away
You've got to me, oh-oh
Loving you baby

Why do I remember?
Memories bring me down
High and low emotions
Are moving me around

Never ending story
Woman meeting man
Oh darling, I can't help it
Together you and I

Hey, you pull the wires
Of my love, in every way
Hey, my desire
Is your love, right away
You pull the wires, moving me, baby
Of love's desire, you're turning me all around
Oh, my desire
You're even more than I can say
You're all for me

When I'm down and all alone
You're my soul and inspiration
At night you are my star
Out on the sea, oh
You guide me every day
And love in every way
Come on, come on stay with me, oh-woah-oh

You pull the wires, that move me baby
Of love's desire, loving you,
Oh-oh, pull the wires
I will surrender right away
You've got to me
You've got to me, oh-oh
