Supermodel

Bambee

I wanna be a supermodel, superstar And posing on the covers Here and near and far

I wanna go around the world In diamonds and pearls And make the boys fall apart

Remember how we used to dress like fools Imagined how it was with loads to choose

I'm taking off in high-heels baby London, Paris, New York-name it I'm waking up in a bed of roses Dreaming my day away

I wanna be a supermodel, superstar And posing on the covers Here and near and far

There is so much for the eyes in Candyland So tell me what to do Your wish is my command

I'm taking off in high-heels baby London, Paris, New York-name it I'm waking up in a bed of roses Dreaming my day away

I wanna be a supermodel, superstar And posing on the covers Here and near and far

I wanna be a supermodel, superstar And posing on the covers Here and near and far

I wanna be a supermodel, superstar And posing on the covers Here and near and far

I wanna be a supermodel, superstar And posing on the covers Here and near and far
