

## Give Me Hope

**Bambix**

You accuse me of so many things that I can't account for  
You try to interfere in my life  
By giving me the thought that I must living down on earth  
And you up in the sky

I am gay, I am black  
I've got aids, I've got a hunchback  
And I'm unemployed  
But we never did anything wrong  
Never bothered or hurt anyone  
So why should you care

You accuse me of so many things that I can't account for  
You try to interfere in my life  
By giving me the thought that one day I'll end up in hell  
And you in heaven  
My father happened to be a jew  
I guess that makes me a jew too  
But I don't even believe  
Still people judge me for that name  
But a name is just a name  
And it's the person that counts.
