

# Take Heart

Bambix

You didn't die alone  
You took a part of me  
The end af all our plans  
(The) end of what we'd be

It boiled down deep inside  
Until it burned you up  
The ignition within reach  
Your flame just dropped

But you did not wake up and I'm the one  
Who'll walk on trough the backyard of the times  
When you are my friend

I just don't know what's wrong or right  
Quess I'm just a bit uptight

And this feeling isn't right  
But I'm lonely tonight

You're never out of reach  
Though you are far away  
The sun's coming up again  
And on that day  
You'll smile at me and say  
That you'll be back again  
Somewere in my dreams  
The biggest ray

That'll shine on me and lift me up  
To wake up in the backyard of the times  
When you are my friend
