

# Back On My Feet

Bamboo

When I wake up bright and early  
And today feels like a Sunday  
I look around for any reason to fall - fall

It's a start  
No better feeling  
It's that rumble in my tumbly  
All those butterflies are soon headed north - north

Back on my feet  
Hello world  
You look like someone I'd like to meet  
Please explain to me the X's and O's  
It's complicated but you already know

There's a freefall in the market  
Hello now ask me if I care  
Built this house with bricks and bottlecaps  
Tear it down now if you dare - dare

Throw a billion in the ocean  
See the world turn belly up  
Is it time to play the arbiter  
Oh whatever is the rush - rush

Back on my feet  
Just the expert we'd all like to meet  
Please explain through simple pictures and song  
I'd like to ask a question but you might think me dumb

Back on my feet  
Walk on water  
Turn bread into stone  
I've given up on the illusion of me  
I plead for mercy sire  
How could this be  
Relax take a seat  
Back on my feet

Oh take me home

B-B-B-Back on my feet  
My fellow countryman  
There's someone I'd like y'all to meet  
He's agreed to all conditions and rules  
A bit of a nag  
Hell but what can we do

Back on my feet  
Hello world  
You look like someone I'd like to meet  
Am I forgiven for that time in Belize

Pains me to see you A'gain  
Damn X's and O's  
The places we'll go  
God only knows
