

# Do Not Disturb

Bananarama

Non disturbed  
Do not  
Disturb

We took the late flight  
Close to heaven in the cold half light  
All the pleasures of that very first night  
Crystal clear in my mind  
No complications  
Just another reservation  
In a beach hotel  
We found a room with a view  
Lock the door and change the sign

Do not disturb  
Do Do Do not disturb  
Just you and me together  
Do not disturb  
Do Do Do not disturb  
This night could last forever  
Take your time  
When you read the sign  
It's in black and white  
In plain and simple terms  
Do not disturb  
Oh no

Where is the laughter  
I know there must have been  
A change of heart  
Oh I don't wanna stay here with you  
Now the sun won't shine  
This total isolation  
Seems to cloud our celebration  
While I'm waiting all alone in my room  
Trying to read between the lines

Do not disturb  
Do Do Do not disturb  
Now we're not together  
Do not disturb  
Do Do Do not disturb  
This night could last forever  
Do not disturb  
Do Do Do not disturb  
Now we're not together  
Do not disturb  
Do Do Do not disturb  
This night could last forever  
Take your time  
When you read the sign  
It's in black and white  
In plain and simple terms  
Do not disturb  
Oh no

Do not...

Oh no  
Non disturbaded  
Do not disturb  
Do not disturb  
Do not disturb  
Do Do Do not disturb
