

# Heartless

Bananarama

Heartless, heartless

Heartless

Your love is too cold to handle  
And I should have realised  
When I try to talk it over  
You always close your eyes

How can I ever love you  
When you won't let me through to you

'Cos you're heartless  
How could you be so heartless  
I can't believe anybody could be  
So heartless

You never show your feelings  
Just look the other way  
When I try to show affection  
You always walk away

How long must you keep me waiting  
Maybe you'll never change

'Cos you're heartless  
How could you be so heartless  
I can't believe anybody could be  
So heartless

I can't believe anybody could be  
I can't believe anybody could be  
So heartless

How can I ever love you  
When you won't let me through to you

'Cos you're heartless  
How could you be so heartless  
I can't believe anybody could be  
So heartless

'Cos you're heartless  
How could you be so heartless  
I can't believe anybody could be  
So heartless
