

# Love Don't Live Here

Bananarama

It's not how love was meant to be  
Broken hearts, broken dreams  
I thought love was wild and free  
But cupid's played a trick on me  
There's nothing left it's time to part  
So give me back my heart  
The fairytale is dead and gone

[Chorus:]

Love don't live here anymore  
A memory and nothing more  
Love don't live here  
It's gone gone gone  
Every part of you replaced  
Every memory erased  
Love don't live here  
It's gone gone gone

Had enough of stormy seas  
Sleepless nights counting sheep  
I need someone who's there for me  
To feel alive and let me breathe  
Well I thought that you should know  
And so I'm letting go And what will be will be

[Chorus]

Love don't live here anymore  
Don't live here anymore [2x]  
Don't live here

Love don't live here anymore  
Don't live here anymore [3x]

[Chorus]

Love don't live here anymore  
Don't live here anymore [6x]  
Don't live here
