Middle of Nowhere

Bananarama

Travelling down that open road The sun beats down on me Mountains reach up to the sky It's where I want to be

It's just an ordinary day
Going my own way
Nothing around obscures my view
And then I saw you

I saw you standing there
Middle of nowhere
I saw you standing there
Middle of nowhere
I saw you standing there
Middle of nowhere
I saw you standing there
I saw you standing there
I know it's a place for me

You said that you were going my way But could you hit your ride You took one look and had to smile How could I pass you by

The way your hair falls on you face Ooh, you make my heart race But I was only passing through Untill I saw you

I saw you standing there
Middle of nowhere
I saw you standing there
Middle of nowhere
I saw you standing there
Middle of nowhere
I saw you standing there
I saw you standing there
I know it's a place for me

I saw you standing there
I know it's a place for me
I saw you standing there
I know it's a place for me

I saw you standing there
Middle of nowhere
I saw you standing there
Middle of nowhere
I saw you standing there
Middle of nowhere
I saw you standing there
I saw you standing there
I know it's a place for me

I know it's a place for me I know it's a place for me
