

Now or Never

Bananarama

Got myself a one way ticket
Got a heart, that needs some fixing
And I can see the runway lights from here
Touchdown New York City
Skyline looking pretty and
I can feel something in the air

Cause when I'm with you
I breathe again, I'm free again
I've been waiting
Counting the days yeah
Just to back to you
Breathe again, I'm free again
Now or never
Maybe forever
When I'm with you

Loving you, leaves me breathless
You, do what, nobody else does
And I fall, deeper into you
So high, to get on top
Your mind never stops yeah
Cause your love is taking over me

Chorus

Got myself in one way ticket
Got a heart that needs some fixing
And I can see the runway lights from here
