

Only Time Will Tell

Bananarama

Was it written in the stars
How I feel it in my heart
Will I wake up from a dream, ooh
All my senses are colliding
Feelings running round inside me

Deep in the night
I hope I'm right
Or will our love drift away on the breeze

Do we have a future
Or will love become a memory
Since the day we fell
We knew the story well
Only time will tell
Only time will tell

Could this be my destiny
When you're lying next to me
Feel the rhythm of our love, ooh
May I never watch our love go
Disappearing into shadow

Deep in the night
I hope I'm right
Or will our love drift away on the breeze

Do we have a future
Or will love become a memory
Since the day we fell
We knew the story well
Only time will tell
Only time will tell

Do we have a future
Or will love become a memory
Since the day we fell
We knew the story well
Only time will tell
Only time will tell

Ooh, all my senses are colliding
Feelings running round inside me

Deep in the night
I hope I'm right
Or will our love drift away on the breeze

Do we have a future
Or will love become a memory
Since the day we fell
We knew the story well
Only time will tell
Only time will tell
