

# Only Time Will Tell

Bananarama

Was it written in the stars  
How I feel it in my heart  
Will I wake up from a dream, ooh  
All my senses are colliding  
Feelings running round inside me

Deep in the night  
I hope I'm right  
Or will our love drift away on the breeze

Do we have a future  
Or will love become a memory  
Since the day we fell  
We knew the story well  
Only time will tell  
Only time will tell

Could this be my destiny  
When you're lying next to me  
Feel the rhythm of our love, ooh  
May I never watch our love go  
Disappearing into shadow

Deep in the night  
I hope I'm right  
Or will our love drift away on the breeze

Do we have a future  
Or will love become a memory  
Since the day we fell  
We knew the story well  
Only time will tell  
Only time will tell

Do we have a future  
Or will love become a memory  
Since the day we fell  
We knew the story well  
Only time will tell  
Only time will tell

Ooh, all my senses are colliding  
Feelings running round inside me

Deep in the night  
I hope I'm right  
Or will our love drift away on the breeze

Do we have a future  
Or will love become a memory  
Since the day we fell  
We knew the story well  
Only time will tell  
Only time will tell
