## Sleep

## Bananarama

My lover, my angel Each time you layed with me Falling from your lips With each kiss You're betraying me Don't tell me you made me You played me for a fool Lies come tumbling down now Like a waterfall Over me Like a heaven without the stars, yeah I don't know why you broke my heart Just send me to sleep I just wanna dream Don't wanna believe This is happening to me Just send me to sleep For eternity Yeah 'Cause I don't wanna be here alone No So silent, so sweetly You played your game with me Slowly suffocating Love was fading I couldn't breathe Beloved Unfaithfull No words are left to speak Crossed unholy water You can't alter Your fate, yeah Summer kisses fade away, yeah I'm left standing in the rain Just send me to sleep I just wanna dream Don't wanna believe This is happening to me Just send me to sleep For eternity Yeah 'Cause I don't wanna be here alone No Just send me to sleep I just wanna dream Don't wanna believe This is happening to me

Just send me to sleep

For eternity Yeah 'Cause I don't wanna be here alone No Just send me to sleep I just wanna dream Don't wanna believe This is happening to me Just send me to sleep For eternity Yeah 'Cause I don't wanna be here alone No
