

# Twisting

Bananarama

It comes upon me slow  
And through my body flows  
And so begins the twist within my soul  
Like a shot in the dark  
You wrap around my heart  
And I can't shake free  
From your hold on me

[Chorus:]

Here I go and all around me's twisting, twisting  
I've no control my head is spinning  
Spinning round and round we go

Blame the stars above  
My endless love  
Only you excite you ignite  
My soul  
There's no relief this burning heat  
Like the desert sands  
Slipping through my hands

[Chorus]

Here I go and all around me's twisting, twisting  
I've no control my head is spinning  
Spinning round and round we go

Move slow, move slow  
Move just flow  
Move just flow  
Move slow, move slow  
Move just flow  
Move just

[Chorus 2x]

Here I go  
Here I go  
Here I go  
Spinning round and round we go

Here I go  
Here I go  
Here I go  
Spinning round and round we go
