

Fun, Fun

Banaroo

You turn me on tonight
Enlight my flame inside
I can't believe, we're about to start

I wanna feel your touch
I wanna feel your lips
We gonna be in another space

Come on have fun fun baby
That's all I need tonight
Come on and move move your body
We'll gonna be alright
Can you kiss kiss me baby
That's all I want to do
Feel the magic of the night
your dreams will come true

I seem to lose control
My body beats my soul
I don't know where we will end this time

If this is my last night
Then I would feel alright
No matter how we will feel the next day

Come on have fun fun baby
That's all I need tonight
Come on and move move your body
We'll gonna be alright
Can you kiss kiss me baby
That's all I want to do
Feel the magic of the night
your dreams will come true
