

# Make You See The Stars

Banaroo

I can make you see the stars  
See the stars, stars above  
I can make you see the stars  
See the stars of love

I can take you to many places  
That you'd never seen before  
You will see so many faces  
But you will stay i know for sure

Have you ever had such a feeling  
Touching your body and soul  
Have you ever had such a feeling  
Inside of you taking control

I can make you see the stars  
See the stars, stars above  
I can make you see the stars  
See the stars of love  
I can make you see the stars  
Fly with me, follow me  
I can make you see the stars  
Come and set me free

Close your eyes and make a wish  
Love is such a beautiful thing  
All your wishes will be accomplished  
So come on baby let us swing

Have you ever had such a feeling  
Touching your body and soul  
Have you ever had such a feeling  
Inside of you taking control

(2x) i can make you see the stars  
See the stars, stars above  
I can make you see the stars  
See the stars of love  
I can make you see the stars  
Fly with me, follow me  
I can make you see the stars  
Come and set me free
