

Feud

Band of Horses

Oh, oh where we get this hope
I can't tell the weak thing is tough
You better get this go
But that is space I want to go on
And I've got to move far, at my own pace
I don't want it no more, more

Feud, yeah you got an attitude
Today you're on the T.V., I need you to tell, let's give hell.
Just a little justice
I sing this...

Give a little money and a house and the car
Filling up your pockets but it's all that you got

I want you to fail

It's just a freak show, wait till you see it from the inside
He was caught sleeping, steady dreaming when the ship caught fire
I'm out of time
I dressed up my heart, my heart

Give a little money and a house and the car
Filling up your pockets but it's all that you got

I want you to fail
