Window Blues

Band of Horses

Erase the facts
The shit was flyin' outta the window
I painted blue
I paint the whole room

When its time to get in trouble
We know just what to do

The screen door swayin'
Now baby gimme something to live for
I been a fool
I been a fool

No revelations in the water
No tears into the booze

In pains the floor
The worried people shaking the whole house
I i take it back
I take it all back

The regret thats got us sayin'
The hounds upon the tracks

And always in time
I'm never looking over my shoulder
I sing to you
I sing it to you

Keeping heads above the water and
Feet into the shoes
