

# Get Yourself Together

Band of Skulls

Wake before the dawn  
You will lie, but you're older  
Neither right or wrong  
Who is that in the mirror?

Ask my broken heart  
For the damage  
I just need your love  
To make me feel brand new  
Brand new, brand new

Come on, get yourself together  
Hurry up, babe  
Now or never  
'Cause what we've got won't  
Last forever  
So come on, get yourself together

Struggle to keep up  
In your head, from the water  
We're letting down to luck  
Or a thing, could it top you?

Ask my broken heart  
For the damage  
I just need your love  
To make me feel brand new  
Brand new, brand new

Come on, get yourself together  
Hurry up, babe  
Now or never  
'Cause what we've got won't  
Last forever  
So come on, get yourself together

Come on, get yourself together  
Hurry up, babe  
Now or never  
'Cause what we've got won't  
Last forever  
So come on, get yourself together

Wake before the dawn  
You will lie, but you're older
