

## Sweet Sour

Band of Skulls

Take you by the hand and feed you  
Do you really feel the need to talk about it?  
Now you're fighting for your corner  
Sayin' that you oughta laugh about it  
You should get a little braver  
Do us all a favor, shout about it

Sweet sour  
Sweet sour  
Sweet sour

Pick up your stitches  
Better than your riches  
Think about it  
I know what you've been through  
We don't really need to talk about it  
It's just a little calmer  
Tryin' to disarm ya  
Shout about it

Sweet sour  
Sweet sour  
Sweet sour  
Sweet sour  
Sweet sour  
Sweet sour  
Sweet sour  
Sour by the minute but you're sweeter by the hour

You were none the wiser  
Even though you tried to understand it  
Try another spoonful  
Love is to be truthful  
Dance around it  
It's just a little calmer  
Tryin' to disarm ya  
Shout about it

Sweet sour  
Sweet sour  
Sour by the minute but you're sweeter by the hour

Sweet sour (11x)

Sweet sour  
Sweet sour  
Sour by the minute but you're sweeter by the hour
