

Black Parade

Bang Gang

Black parade
We will tear you down
Path of hate
Try to rip you out
Curse your way
You won't force me down
Sharpened blade
I will start you down

Try to run from all the bad things
You can see me in front of your face
You're an animal can you go, can you go, go home

Black parade
We will tear you down
Path of hate
Try to rip you out
Curse your way
You won't force me down
Sharpened blade
I will start you down

Try to run from all the bad things
You can see me in front of your face
You're an animal can you go, can you go, go home

Just try to watch me now
Before I take you out
I'll cut you up tonight
And starve you with your lies
And if you try to cry
I'll set fire to your eyes
I'll feed you with your fright
And bury you alive

Black parade
We will tear you down
Path of hate
Try to rip you out
Curse your way
You won't force me down
Sharpened blade
I will start you down

Try to run from all the bad things
You can see me in front of your face
You're an animal can you go, can you go, go home

Just try to watch me now
Before I take you out
I'll cut you up tonight
And starve you with your lies
And if you try to cry
I'll set fire to your eyes
I'll feed you with your fright
And bury you alive

Black parade
We will tear you down
Path of hate
Try to rip you out
Curse your way
You won't force me down
Sharpened blade
I will start you down

Black parade
I won't make you change your own way
Path of hate
You'll never get your hands in my faith
Curse your way
I won't make you change your own way
Sharpened blade
Never get your hands in my faith
