Bang Gang

Can you feel the sun  
Can you feel it burn  
Shining alone  
Minding it's own  
Blinding my soul  
It gets me higher

Now follow me always  
Into the sky  
Where we reach the stars  
Now follow me slowly  
Over the stars  
Where we reach the sky  
Where we reach the sky  
Where we reach the sky

Can you feel the sun  
Can you feel it burn  
Shining alone  
Minding it's own  
Blinding my soul  
It gets me higher

Now follow me always  
Into the sky  
Where we reach the stars  
Now follow me slowly  
Over the stars  
Where we reach the sky  
Where we reach the sky  
Where we reach the sky
