

I Know You Sleep

Bang Gang

I can't explain why you're always stuck in my mind
Stuck out of look into my dead eyes
My wings are broken but your head's high
I'm passing the way in my own arms

Run away, disappear in the pale night
Close your eyes, feel the heat from the dark side
Take a chance, make a turn to the flash light
I am yours, you are mine We're in love, right ?

Stay with me
I know you sleep
I cannot breathe
I feel you here
I need you with me

I know you sleep
I cannot breathe
I feel you here
I need you with me

I can't explain why you're always stuck in my mind
Stuck out of look deep in my dead eyes

Run away, disappear in the pale night
Close your eyes, feel the heat from the dark side
Take a chance, make a turn to the flash light
I am yours, you are mine We're in love, right ?

Stay with me
I know you sleep
I cannot breathe
I feel you're here
I need you with me

I know you sleep
I cannot breathe
I feel you're here
I need you with me

Run away, disappear in the pale night
Close your eyes, feel the heat from the dark side
Take a chance, make a turn to the flash light
I am yours, you are mine We're in love, right ?

Stay with me
I know you sleep
I cannot breathe
I feel you're here
I need you with me

I know you sleep
I cannot breathe
I feel you're here
I need you with me
