So Alone

Bang Gang

The nights has strange moonlight
It's so confusing
Alone I watch the sky
Tired and breathing

But if you want me
I won't be so alone
You can always
Fool the sun

And if you want me
I won't be so alone
You can always
Bring the fun

The sea is my best friend
We're always crying
When crawling in the sand
Tired of breathing

But if...

The night has strange moonlight
The sea is my best friend
When crawling in the sand
Tired of breathing

But if...
But if...
