

There Was A Whisper

Bang Gang

I feel so alone
I feel so cold
I wan't to fly
Take off to the sky
It's so cold
It's so cold
It's so cold

There was a chill
There was a sound
There was a whisper
That I found
It went along
Searching
It will return while I stay

I feel so alone
I feel so cold
I wan't to fly
Take off to the sky
It's so cold
It's so cold
It's so cold

There was a chill
There was a sound
There was a whisper
That I found
It went along
Searching
It will return while I stay

There was a chill
There was a sound
There was a whisper
That I found
It went along
Wandering
It will return while I stay
Searching

There was a chill
There was a sound
There was a whisper
That I found
It went along
Searching
It will return while I stay

There was a chill
There was a sound
There was a whisper
That I found
It went along
Wandering
It will return while I stay
Searching
