

Kill the Radio

Bang Sugar Bang

I put you in a box with everything I ever lost
But the sound of your voice keeps haunting me
Oh everywhere I go you're on the radio
Sonic sacrilege
The union of our souls
Everywhere I go you're on the radio
I wanna kill the radio
I feel better but I feel worse at the same time
Everywhere I go you're on the radio
Speakers blow my resolve to pieces
Everywhere I go you're on the radio
I wanna kill the radio
You're on the stations in my head
Kill the radio
