

Big Line

Bang Tango

Big bad Sally's got a big bad problem
In the valley tonight
She's got an uptight boyfriend
And he says he don't dig her
But you know she's doin'
Fine - so dig it

Down in the city where the bad brass is shakin'
And the holy man, he's snakin'
They like to move when they walk
They like to funk when they talk
And you know just what they're doin'

They draw a big line
It's alright
So, have a good time
Tonight
And draw a big line
It's alright
You've got to do a little shake
You've got to do it, do it
Do me alright

Well, it feels a little dirty
And it feels a little cheap
But you know what it's good for
You've got to watch what you do
You've got to watch what you say
If you wanna even the score
I said come on over here and I'll make you feel fine
I'll take you downstairs, gonna ease your mind
But let's get it straight
What you take me for, an upright down right
Ain't that kind of a guy

Marshmallow lover step back
Stop doin' watcha doin'
You've got your feet in the beat
