

More Than Meets The Eye

The Bangles

1. He's got a slow slow ride, got a camera inside
He takes a picture, hangs it up to dry
And there's one girl named, and another displayed
All the time you can't help feeling ashamed
Given new reasons to survive
He keeps a number of them alive
There's a warning in the sky
A stranger passing by
And there's more than meets the eye to the guy.
2. When you're so secure, never feeling unsure
That's the time to check behind your door
Cause there's one thing said when another is meant
He's around confusing you to the end
Seeing how changeable you feel
Don't think that happiness is real
And it's hard to justify
The tangle you untie
And there's more than meets the eye to the guy.
