

What a Life

The Bangles

Another crummy perfect day
Waking up in LA
Never thought that I would stay so long

Dusty leaves and bees are hummin'
Ten day says there's no rain comin'
The sun is shining 'cause
It nearly always does
What else can I say

What a life
What a life
What a life we lead
I'm just layin' here
So wake me when it's time to leave

Orange sky and ashes falling
I can't get home the car is stalling
How lucky can I get?
I am so fortunate

What a Life
What a Life
What a Life we lead
I'm just waitin' here
So wake me when it's time to leave
Yeah, wake me when it's time to leave

Well, it's another perfect day
I guess I wouldn't have it any other way...
