

## What a Life

The Bangles

Another crummy perfect day  
Waking up in LA  
Never thought that I would stay so long

Dusty leaves and bees are hummin'  
Ten day says there's no rain comin'  
The sun is shining 'cause  
It nearly always does  
What else can I say

What a life  
What a life  
What a life we lead  
I'm just layin' here  
So wake me when it's time to leave

Orange sky and ashes falling  
I can't get home the car is stalling  
How lucky can I get?  
I am so fortunate

What a Life  
What a Life  
What a Life we lead  
I'm just waitin' here  
So wake me when it's time to leave  
Yeah, wake me when it's time to leave

Well, it's another perfect day  
I guess I wouldn't have it any other way...
