

# If We Were Made of Water

Banks

You apologize  
One too many times so I gave up  
You used your second tries  
All the words you end up spitting up  
You have gentle eyes  
That I love that I hate that I love that I hate that I love tha  
t I hate that I love

Baby say it again  
Maybe if you say it again  
Maybe if you say it again  
Maybe I'll believe it then  
Baby say it again  
Maybe if you say it again  
Change some words around  
Maybe I'll believe you then

But I'm hurting from the way that this worked out  
If you could rearrange your words you could've saved it  
If we were made of water we could swim around it  
But I can't no more

I still love you though  
You're still my best friend  
But I hate you though  
And from my tippy toes  
That I used to limp  
Round your big ego  
I shoulda told you so  
When you asked me if I could forgive when you asked me I should  
a said no

But I'm hurting from the way that this worked out  
If you could rearrange your words you could've saved it  
If we were made of water we could swim around it  
But I can't no more

But I'm hurting from the way that this worked out  
If you could rearrange your words you could've saved it  
If we were made of water we could swim around it  
But I just can't believe no more

If we were made of water  
If we were made of water  
If we were made of water  
If we were made of water
