

Stick

Banks

Come shout out
So sick at you
Make it come quick
I want to demonstrate
So down for you
We could stick

Come shout out
So sick at you
Make it come quick
I want to demonstrate
So down for you
We could stick

I got to take you home
We're living in hard times, we're living in hard times
Baby, you think you know
I think it's about time, that you're gonna make me wild

Baby, you don't wanna leave
You'd be sorry, cause honestly
I can make you feel better, any day
Look at what you've done for me
I called it how I see
You belong with me

Come shout out
So sick at you
Make it come quick
I want to demonstrate
So down for you
We could stick

Come shout out
So sick at you
Make it come quick
I want to demonstrate
So down for you
We could stick

Tell me I got you, baby
I wanna know how you taste, I wanna know how you taste
Now that you keep me warm
Baby I call you fire, and maybe I'll be your fire

Baby, you don't wanna leave
You'd be sorry, cause honestly
I can make you feel better, any day
Look at what you've done for me
I called it how I see
You belong with me

Come shout out
So sick at you
Make it come quick

I want to demonstrate
So down for you
We could stick

Come shout out
So sick at you
Make it come quick
I want to demonstrate
So down for you
We could stick

Tell her you love her, tell her you're down for
Tell her you're down for it

Tell her you love her, tell her you're down for
Tell her you're down for it

Tell her you love her, tell her you're down for
Tell her you're down for it

Tell her you love her, tell her you're down for
Tell her you're down for it
