

What About Love

Banks

I belong to no one
You belong to someone else but
Maybe if we just rewind the tape?
Gimme one more chance to
Gimme one more chance to show you baby
Maybe if you just realized what we could be?

Maybe if you just relearned my name?
Maybe if you just relearned my name?
What about the life that we could make?
We could grow older!
What about love?
What about love?
What about love?
What about love?

I belong to no one
You belong to someone else but
Maybe if we just go back in time?

Hurts to see you in real life but
I can talk to you like this- is that okay?
That's the only way
That's the only way
That's the only way

Promised me you would never love another
You said it when we were under the covers
What about the way we kiss the same?
We could grow older
What about love?
What about love?
What about love?
What about love?

What about what about what about what about love, what about love babe?
What about what about what about what about love, what about love?
What about what about what about what about love, what about love babe?
What about what about what about what about love, what about love?

I love you
I love you
