

Chalice of Death

Baptism

Deep green sea opens, raging to the horizon
Ground breaths forth desperate air
And from amidst the fire not seen
by all, boasts out the voice
From the darkness I cry for you (Lord Satan)

I see a Fragile constellation,
from beyond this universe
A breath of death to my inner hell
My light as by the will of its creator (Lucifer)
A spark from the forge within Earth's core

If that breath could set free
If I could leave everything
and travel beyond realities
I would rise to my lips the Chalice of Death
and drink without the smallest hesitation
Clear pleasure, lascivious strength
Fervent, wavelike power

Sinä kuoleman malja ja sisäinen tuli
Sinä vapahdus ja kadotus kaikessa läsnä
Sinusta me olemme tehdyt ja sinuun hajoamme
Sinä iänkaikkinen ja ikuinen
