

Damn

Baracuda

Remember the time,
1989, when I grew up
to see the sign
Without U I can't breath...

I look upon to see the stars
The Milky Way, the moon and Mars
I miss you
by my side...

Who ever know the way
If I came back to hear you say
I need you in my life...

All in all it's not to late
Forget the past, try to create
A feelin' that can't wait...
If you want, I know it's not too late.

Remember the time,
1989, when I grew up
to see the sign
Without U I can't breath...

I look upon to see the stars
The Milky Way, the moon and Mars
I miss you
by my side...

Who ever know the way
If I came back to hear you say

All in all it's not to late
Forget the past, try to create
A feelin' that can't wait.
If you want I know it's not too late...
