

(when You Close Your Eyes) I'll Make You See

Barbara Fairchild

If I could just get you to love me one more time
For just a moment have you here with me
With your sweet lips next to mine you lose all track of time
Cause when you close your eyes that's when I'll make you see
It's been a while since you have been here in my arms
Oh how they ache to hold you tenderly
I've got so much love to give if you'll take it we'll both live
And when you close your eyes that's when I'll make you see

I'll make you see the sky is just a little bit bluer
I'll make you see my love is just a little bit truer
And I hope your heart and mind make you want me all the time
And when you close your eyes I'll make you see
I'll make you see the birds will sing a little bit sweeter
I'll make you see that I love you a little completer
If you'll take me in your arms let me keep you nice and warm
And then just close your eyes I'll make you see
Then you love me
