

Got to be friends

Barbara Haščáková

We've got to be friends
Now we forget the story
Don't break this chance
You've got to say I'm sorry
Got to be friends and no more toss about it
Let's shake our hands, all'll be fine
You've got to know what I feel to you
I got to know what you feel to me
Anybody want to be my friend
But I want you, don't you understand
We've got to be friends, got to be friends, got to be friends
We've got to be friends
If you wanna dance together with a friend
Let's do it
We've got to be brother and sister
All my friends you've gotta know I miss you
This place in my life is all empty
Just say sorry and come back to me
I got to say to you again
That everybody needs a friend
I want you to come back into my life
It's enough to do any apology
We've got to be friends shaking our hands
I wanna I can
We've got to be friends, you and I guess
Don't be afraid, so come on
We've got to be friends in bad or good
I wanna be with you, so understand
Got to be friends, got to be friends, got to be friends
