

## See the light

Barbara Haščáková

My life is tremendous maze  
I can't find my way without love  
So now I have to say  
It's simple just wait for the voice of your heart  
You can see the light which is shining in the night  
Can see the light gotta believe in  
You can see the light, it's a reason to fly  
Right to the stars in the sky  
Yes, you can see the light  
Make it if you wanna try  
Maybe you're without name, everybody call it same  
Everybody call it love  
And now it's not enough  
When you feel like in the night love will be your light  
Love is all around the world  
And flies like a bird in the sky  
I hope it comes to me now  
The powerful love will take me high  
Yes, you can see the light  
Love will be by your side  
So am I just look up  
Baby you're my light and star  
Lay your hand on your heart  
Maze seems your brand new start  
All love you wanna find and love will be your light
