

Baby Come Home

Barbara Mandrell

Oh baby come home baby come home baby come home please come on home

I see your picture on every wall then I realize that you're not here at all

Come home now baby come home

Well I miss you so much come on home come on home

I love you so much come on home

Well all of those years were not all bad cause I'm so lonely I feel so sad

Oh but you come back baby come back to me and I hope that you still love me

Come home now please come on home

Well I miss you so much...

[guitar]

Well all of those years...

I love you so much come on home
