## I'll Never Stop Loving You

## **Barbara Mandrell**

Goodbye isn't easy to say But it's best we say it now I'm not right for you anyway I don't have the heart to pretend Even though I've got to go My love for you will never end

I'll miss you, baby please don't cry We both saw it through Let it end before it dies Every day I'll be thinking of you Cos the sweetest memories Are the ones I made with you

But I'll never stop loving you I know me well enough to know it's true In time you may find somebody new But I'll never stop loving you No I'll never stop loving you Loving you
