In Times Like These

Barbara Mandrell

Sitting on the front porch Rain is pouring down News comes on the radio There's trouble all around

That's the way it always been
And the way it'll always be
I thank the good Lord I've got you
In times like these

The rich keep getting richer
The poor barely get by
Farmer Johnson says it's either
Too wet or too dry

Jobs are scarce down at the factory I thank the good Lord I've got you In times like these

In times like these
When it's easy to get down
You're my inspiration
You're my solid ground

In times like these Love will pull us through Baby, I know I can depend on you

We can read about the latest In the fashion magazines But that don't change the fact That we got patches on our jeans

Everybody's needing money
Even the preachers preaching on TV
I thank the good Lord I've got you
In times like these

In times like these
When it's easy to get down
You're my inspiration
You're my solid ground

In times like these
Love will pull us through
Baby, I know I can depend on you

It costs you forty-five cents For a nickel candy bar And a dollar's worth of gas Won't even start your car

Yeah, we got problems
Here in the land of free
But there's no place I'd rather be

In times like these

I thank the good Lord I've got you

In times like these
In times like these, baby
(Baby)
In times like these
In times like these
