## This Time I Almost Made It

## **Barbara Mandrell**

This time I almost made it came so close to saying no I almost found the words to make you go
This time I almost made it almost pushed you away
But my heart cried out begging you to stay

Now I'm laying here beside you cryin' softly Cause I know you're going home to her Cause you belong to her and you go home to her

I know you steal away I know there'll be another day That you'll come back again And you'll say hello friend and I'll reach out my hand

This time I almost made it this time I almost made it
